

# Benjamins Mill Wind Project

Natural Forces is proposing to develop a wind energy project near Falls Lake, Nova Scotia. The Benjamins Mill Wind Project would consist of an estimated 10-24 turbines with the capacity to produce 50-100 MW of clean renewable energy. This proposed project would supply enough electricity to power up to an estimated 61,800 Nova Scotia homes.

The proposed Benjamins Mill Wind Project is located approximately 10 km southwest of Windsor on private and Crown Land.

This project is being proposed by the partnership between Natural Forces and Wskijnu'k Mtmo'taquow Agency Ltd (WMA), a corporate body wholly owned by the 13 Mi'kmaw bands in Nova Scotia.

## About Natural Forces

Natural Forces is a private, independent power producer based in Halifax, Nova Scotia. We deliver renewable energy projects in partnership with local communities across Canada, the United States and Ireland.

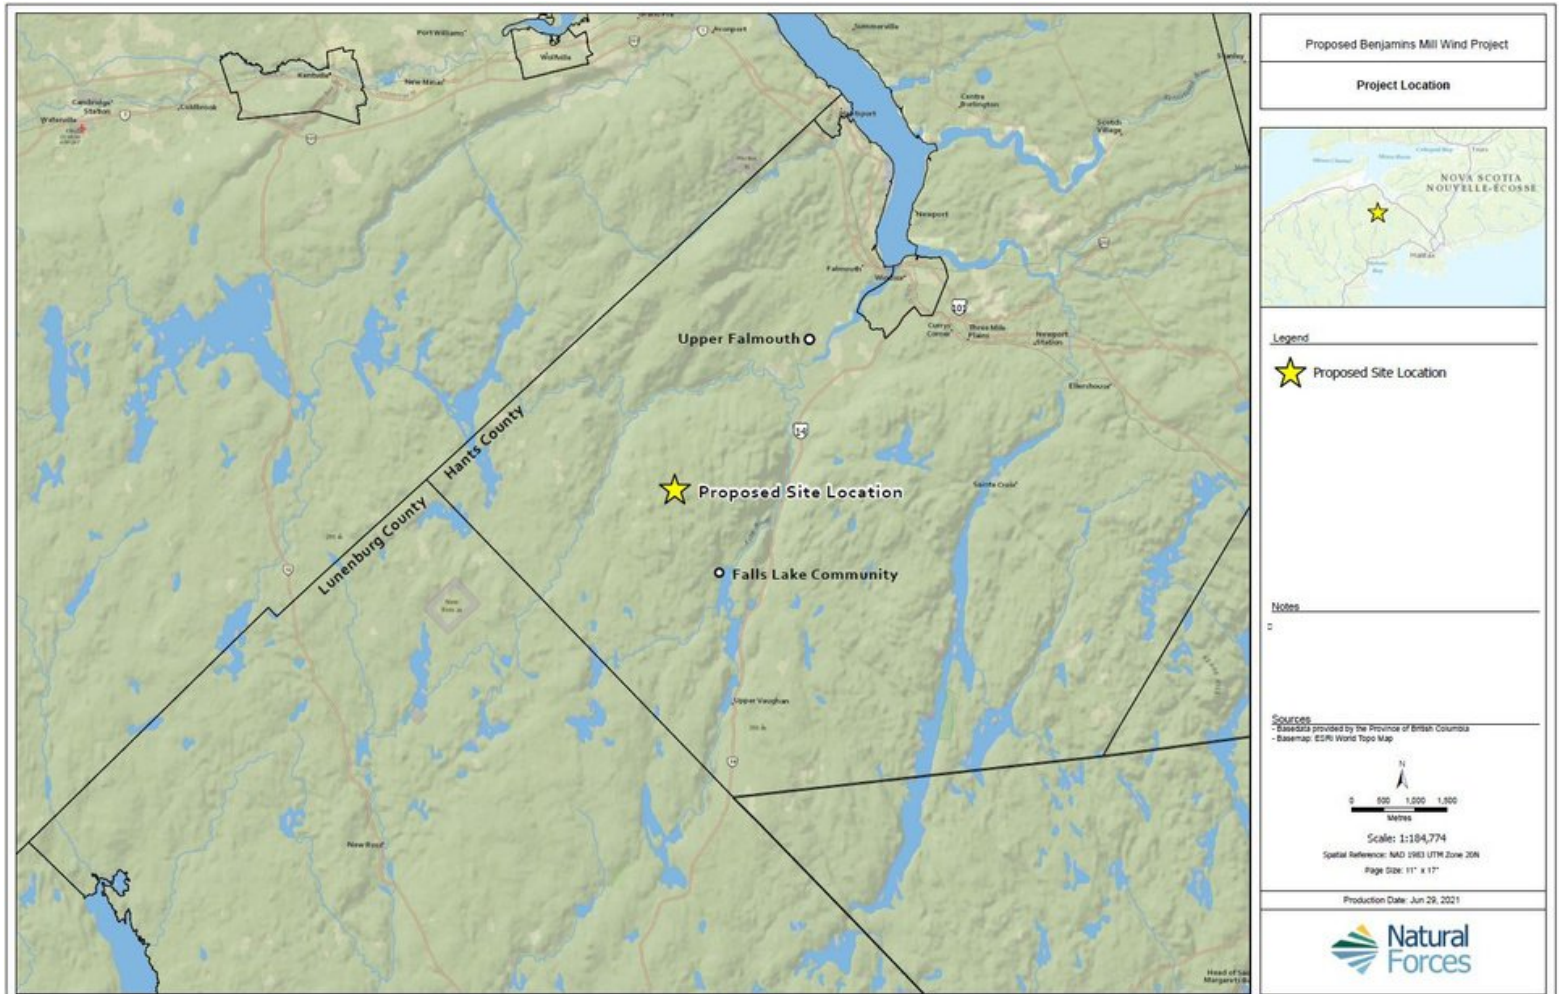

We develop, construct, own, and operate wind, solar, hydro and storage projects with First Nation communities, universities, municipalities, and local community funds.

Over the last 20 years, our team has delivered renewable energy projects on time and on budget, including approximately 300 MW of operational energy projects, with thousands of MW of assets in early, mid and late-stage development across Canada, USA, and Ireland.

We believe that partnering with local communities for these projects not only generates clean and renewable electricity but delivers local economic prosperity and raises awareness of the challenges of climate change.

# Project Updates

- The Environmental Assessment (EA) for the Project has been registered with the province as of January 18 2022.
- The document is now available for viewing on our website, the provincial EA website, and physically at the following locations:
  - The Nova Scotia Environment Regional Office at 136 Exhibition Street, Kentville, NS
  - The Windsor Regional Library at 195 Albert Street, Windsor, NS
  - The West Hants Municipal Office at 100 King Street, Windsor, NS
- Comments on the EA can be directed to the Nova Scotia Department of Environment and Climate Change until February 17 2022.
- A virtual open house will also be held on February 3, where any questions about the Project, the EA, or anything else can be addressed. More info on the open house is included in the attached invitation.
