

Westchester Wind Project

Natural Forces is proposing to develop a wind energy project on Westchester Mountain, Nova Scotia. The Westchester Wind Project would consist of up to 12 turbines with the capacity to produce approximately 50 MW of clean renewable energy. This proposed project would supply enough electricity to power an estimated 11,250 Nova Scotia homes.

The proposed Westchester Wind Project is located approximately 25 km south of Oxford on privately owned lands.

This project is being proposed by the partnership between Natural Forces and Wskijnu'k Mtmo'taquow Agency Ltd (WMA), a corporate body wholly owned by the 13 Mi'kmaq bands in Nova Scotia.

About Us

Natural Forces is a private, independent power producer based in Halifax, Nova Scotia. We deliver renewable energy projects in partnership with local communities across Canada, the United States and Ireland.

We develop, construct, own, and operate wind, solar, hydro and storage projects with First Nation communities, universities, municipalities, and local community funds.

Over the last 20 years, our team has delivered renewable energy projects on time and on budget, including approximately 300 MW of operational energy projects, with thousands of MW of assets in early, mid and late-stage development across Canada, USA, and Ireland.

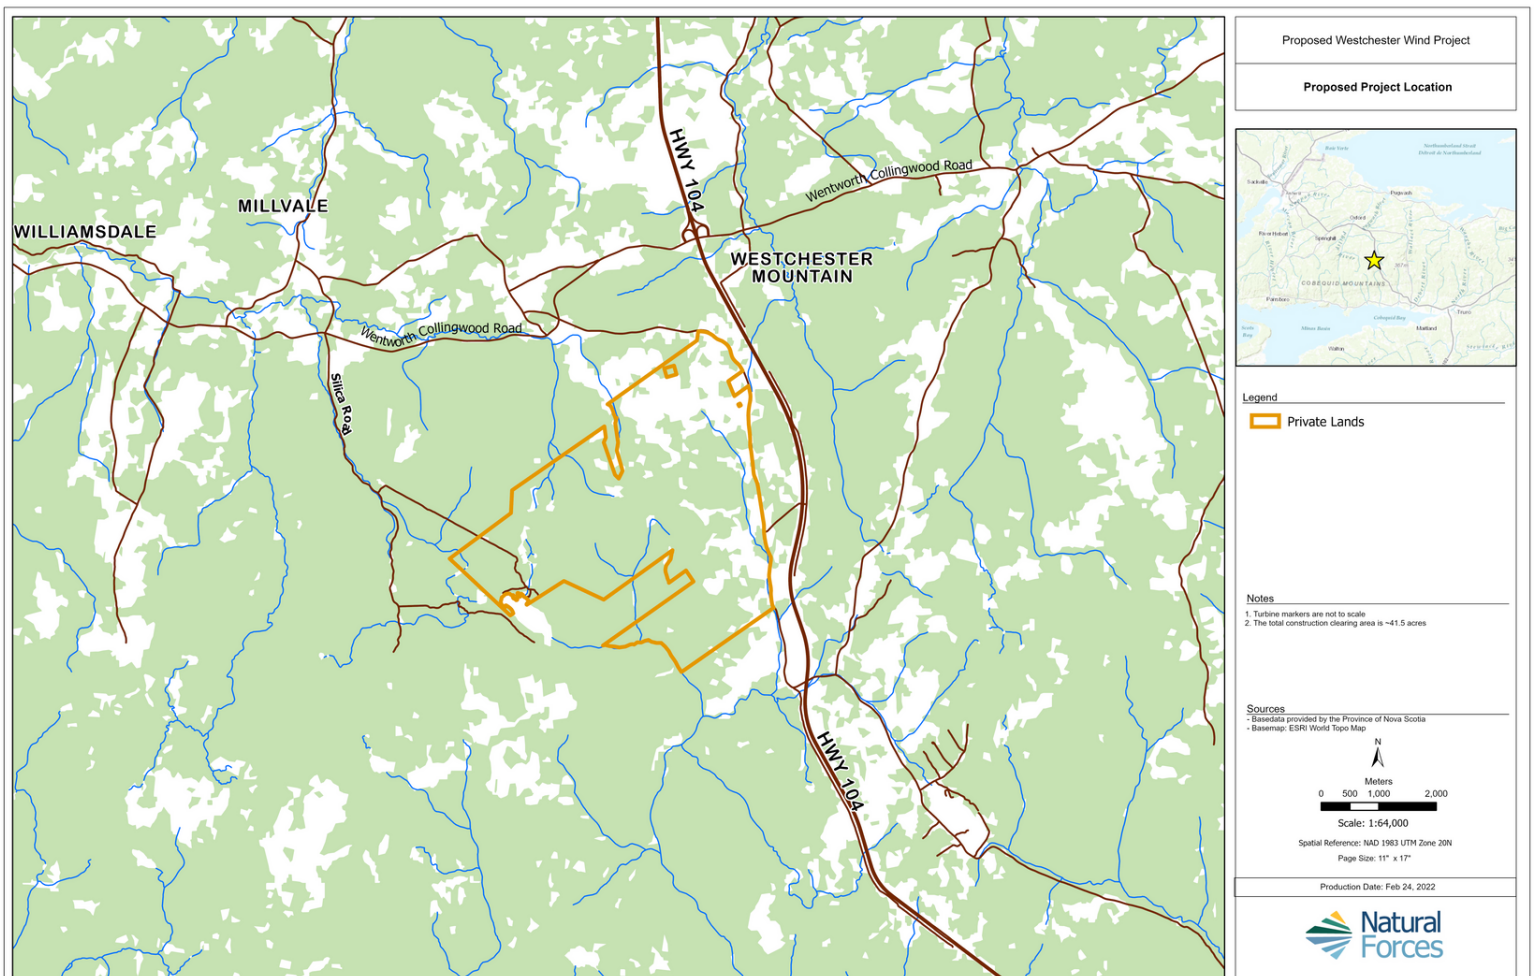

Wskijnu'k Mtmo'taquow Agency Limited (WMA) is a corporate body wholly owned by the 13 Mi'kmaq bands in Nova Scotia.

Together, Natural Forces and WMA are developing the project, and will later co-own and operate the project.

Project Updates

- Natural Forces registered the environmental assessment (EA) with the Province on February 23, 2022
- The results from these studies can be viewed in person or virtually at the following locations:
 - Nova Scotia Environment Regional Office: 71 East Victoria St., Amherst, NS
 - Upper Nappan Service Centre (Municipal Office): 1395 Blaire Lake Road, Upper Nappan, NS
 - Oxford Town Hall: 105 Lower Main, Oxford, NS
 - The NS Environment Website: <https://novascotia.ca/nse/ea/Westchester-Wind-Project/>
 - Our project website: <https://www.naturalforces.ca/westchester-wind-project.html>
- The Department of Environment and Climate Change invites the public to submit formal written comments about the EA on or before March 25, 2022. Details can be found on their website (listed above).
- Questions and feedback on the project can be submitted to Natural Forces via Meg Morris. Contact details are included at the bottom of this page.

Please note that the EA is just one of several permits required for the project to move ahead. Along with municipal permits, the project will also need to be selected as part of the Rate Base Procurement Program to move ahead to construction. This decision is expected in August 2022.
