WESTCHESTER WIND PROJECT
SEPTEMBER 2026 NEWSLETTER

INTENT TO BID

Natural Forces intends to bid the proposed Westchester Wind Project into the Nova Scotia Green Choice Program Request for Proposals.

Project updates will be published on our website and sent to our mailing list as they become available. For more information, or to join our mailing list, please contact the email or phone number attached below.

SEPTEMBER 17, 2026

ABOUT THE PROJECT

The proposed Westchester Wind Project would consist of an estimated 12 wind turbines, located in Cumberland County on Westchester Mountain, to the west of Highway 104, approximately 24 km from the Cobequid Pass Tolls. The Westchester Wind Project received EA approval on February 13, 2023.

ABOUT THE PROPONENT

The proposed Westchester Wind Project is being developed, and will be constructed, owned, and operated by Natural Forces. Natural Forces is a private independent power producer based in Halifax, NS that delivers renewable energy projects in partnership with local communities.

COMMUNITY LIASION COMMITTEE

A Community Liaison Committee (CLC) facilitates communication between project proponents, local community members, and special interest groups throughout the lifetime of a project. Natural Forces is seeking interest in the formation of a CLC for the proposed Westchester Wind Project to discuss project information and any local ideas and concerns. If you are interested in joining a CLC for the proposed Westchester Wind Project in a voluntary capacity, please reach out to us at the contact information below.
