PROPOSED CLYDESDALE RIDGE WIND PROJECT

INFORMATION SESSION NOVEMBER 2026

PROPOSED CLYDESDALE RIDGE WIND PROJECT INFORMATION SESSION

MONDAY, NOVEMBER 2 2026
4:00 -7:00 PM

KEMPTOWN COMMUNITY CENTRE
59 Loop Old Hwy 4
Kemptown, NS B6L 2M4

This information session will be drop-in style and there will be information of the proposed project, allowing some flexibility for your schedule. Project staff will be present at this event to provide information on the Project and to answer any questions. Coffee/ tea & snacks provided.

ABOUT THE PROJECT

The proposed Clydesdale Ridge Wind Project would consist of up to 18 wind turbines and is located adjacent to the operational Dalhousie Mountain Wind Farm. The Project is located near Mount Thom, Earltown, Loganville, and Berichan in both Colchester and Pictou County.

ABOUT THE PROPONENT

TThe proposed Clydesdale Ridge Wind Project is being developed and will be constructed, owned and operated by a partnership between Dalhousie Mountain Wind Energy Inc, an affiliate of RMS Energy, and Natural Forces. RMS Energy is a full-service wind turbine maintenance company and Natural Forces is an independent power producer. Both companies are based in Nova Scotia and have experience developing, constructing, owning, and operating renewable energy projects.

COMMUNITY LIAISON COMMITTEE

A Community Liaison Committee (CLC) facilitates communication between project proponents, local community members, and special interest groups throughout the lifetime of a project. The Project Partners are seeking interest in the formation of a CLC for the Clydesdale Ridge Wind Project to discuss project information and any local ideas and concerns. If you are interested in joining a CLC for the Project in a voluntary capacity, please reach out to us at the contact information below.
