PROPOSED CLYDESDALE RIDGE WIND PROJECT AUGUST 2024 NEWSLETTER

PROPOSED CLYDESDALE RIDGE WIND PROJECT INFORMATION SESSION

WEDNESDAY AUGUST 21, 2024
4:00-7:00 PM
Earltown Community Centre
5527 Highway 311
Earltown, NS B0K 1V0

Staff will be present to discuss the project, accept comments and feedback, and answer questions. Additionally, with the submission of the Provincial Environmental Assessment in early August, the materials will be available for review and discussion at the information session.

ABOUT THE PROJECT

The proposed Clydesdale Ridge Wind Project (the Project) consists of up to 18 wind turbines and is situated adjacent to the operational Dalhousie Mountain Wind Farm. The Project is located near Mount Thom, Earltown, Loganville, and Berichan in both Colchester County and Pictou County.

ABOUT THE PROPONENT

The Project is being developed and will be constructed, owned, and operated by a partnership between Dalhousie Mountain Wind Energy Inc, an affiliate of RMS Energy, and Natural Forces (the Project Partners). RMS Energy is a full-service wind turbine maintenance company and Natural Forces is an independent power producer. Both companies are based in Nova Scotia and have experience developing, constructing, owning, and operating renewable energy projects.

COMMUNITY LIAISON COMMITTEE

A Community Liaison Committee (CLC) facilitates communication between project proponents, local community members, and special interest groups throughout the lifetime of a project. If you are interested in joining a CLC for the Project in a voluntary capacity, please reach out to us at the contact information below.
